Ballinger Independent School District

August 1, 2017

Dear Students and Parents:

Ballinger Independent School District is proud to continue our Laptop Initiative – “**emPOWERing Students for the Future**”. This project loans a school owned laptop computer to students for educational use at school and at home. MacBook laptops are an important tool for student learning. Teachers will often use the MacBooks for classroom instruction and will be assigned homework and projects that will require students to use the MacBooks. Electronic textbooks will be available on the laptop to eliminate the need to carry regular textbooks. Accessing the Internet will allow students to have more resources available and stay up-to-date with current worldwide information than what Ballinger ISD could provide through utilization of a basic textbook or other classroom media series.

For students to gain maximum educational benefit from the laptop computers, they will need to use them at home as well as school. **Ballinger ISD will assess a \$25.00 non-refundable annual use fee. The child/parent will still be responsible to pay a \$50 fee per incident for items not covered under warranty. LAPTOPS STOLEN FROM UNLOCKED AUTOMOBILES ARE NOT COVERED BY INSURANCE OR BY THE DISTRICT AND STUDENT/PARENT WILL BE RESPONSIBLE FOR THE REPLACEMENT COST OF THE LAPTOP!** Pricing fees for non-covered damage to a laptop is listed out in detail on the attached “**Student/Parent Laptop Agreement.**”

Parents are encouraged to be involved with their child’s computer care and use. Students will be trained on proper care, proper use, and educated on appropriate online behavior, including interacting with other individuals on social networking websites, chat rooms and cyber bullying awareness and response. The **Student Agreement Form** and the **Laptop Checkout Agreement Form** must be signed by each student and a parent/legal guardian and turned in before receiving the student laptop. Students will **not** receive a laptop until **all forms** are returned, including the Free and Reduced Meal Application unless previous year information is used. Please note the general “**Acceptable Use Policy.**”

Ballinger ISD will no longer be providing insurance policies on the laptops. Repairs will be completed by the district and **students/parents will be responsible for repair cost outlined in the AUP.** The district is asking all parents and students to take better care of this resource otherwise the district may not be able to continue the laptop program in future years. Please keep all food and drinks away from the laptop along with younger children and pets.

The laptop computers will have many uses at home without Internet Access, but the students could receive additional benefits with this service. Textbooks and other class content will be saved on each laptop as directed by the students’ teachers. **However, Internet access at home will not be required.** Students will be able to gain access around each of the Ballinger Independent School District schools.

We hope that you share our excitement of being able to offer the laptop computers as an instructional resource to our students and teachers at Ballinger Independent School District. The impact on teaching and learning will be enormous. Our students will gain access to current information and will be able to use this information to enhance learning. In addition, their technology skills will increase and better prepare them for higher education and the workforce. As with any initiative, there will be constant assessment and necessary changes to make this project work to the maximum benefit of our students. We are committed to that goal.

Sincerely,

Jeff Butts
Superintendent of Schools

Internet Safety Tips for Parents

Online tips for parents:

LOCATION:

The MacBook should be in a central location in the home where you can see the laptop and monitor use.

- You should be able to see their computer screen while they are online.
- If they take the MacBook to other friends' homes, talk with their parents about how they monitor online access.
- Spend time with your children online. Have them teach you about their favorite online destinations.

MONITOR:

Monitor your child's computer use. Limit Internet, email, instant messaging, and chat room access.

- Make sure you know where your child is going online, where he/she's been, and with whom.
- Closely monitor your child's participation in any chat room.
- Make sure you understand how your children are using the computer, what web sites they are visiting, and who they are communicating with online.
- Always maintain access to your child's online account and randomly check his/her e-mail. Be upfront with them about your access and the reasons why.

COMMUNICATE with your child about your expectations and what you consider appropriate for him/her while they are online.

Online tips to discuss with your student:

1. Never give out any type of personal information to anyone on the Internet. (Including name, address, phone, age, family income, friend's names, school location, photos, etc.)
2. Never use your parent's credit card on the Internet without their permission and supervision. Credit cards should never be used on sites that are not secure.
3. Never share passwords with anyone. When selecting passwords to use on the Internet, do not pick something that could easily be figured out or deciphered or is a common term.
4. Never arrange a face-to-face meeting with anyone you have met on the Internet. People you meet in a chat room may not be who they appear to be; Sally who says she's 12 can really be Bob who is 45.
5. Never open emails if you do not know who they are from or if they make you feel uncomfortable in any way. Unsolicited e-mail that is opened could give you a virus and be the cause of unwanted mail (spam).
6. Never click on banner ads in a site. Most of the time, they will add your address to a database and you will receive unwanted spam mail.
7. Never use bad language or send mean or threatening email. Never joke around about inappropriate things when emailing others. Likewise, never respond to messages or bulletin board postings that are suggestive, obscene, belligerent, or harassing.
8. Never upload (post) pictures of yourself or your friends/family to the Internet or online service to people you do not personally know.
